

產品說明

- 採用耐高溫銑鐵鑄造，具有耐高溫、耐蝕之特性。
- 外型美觀輕巧，可放於工作台上溫度控制，係採用高(H)低(L)溫兩段式調整。
- 操作簡單，使用方便。
- 適合小型加工廠使用。

產品規格

- 電壓:110V/220V AC.60/50Hz
- 溫度: 攝氏 420~480 度
- **SP-40B:** 內部直徑 40cm, 120~150W
- **SP-60B:** 內部直徑 60cm, 250~300W
- **SP-80B:** 內部直徑 80cm, 350~400W
- **SP-100B:** 內部直徑 100cm, 450~500W

- 錫爐深度: 40mm

Round Soldering Pot -- Basic >> Product No. : SP-40B **NEW**

FEATURES

- Thermostable and Anticorrosion pot, made by high-heat-treated cast iron.
- Compact size is suitable on working table.
- Two-step thermal control: (H) High and (L) Low temperature.
- Easy operation and maintenance.
- Fit to small factory or work house.
- Application: high-temperature wire, electronic component, enameled wire.
- For small soldering productivity.

SPECIFICATIONS

- Power: 110V/220V AC.60/50Hz
- Temperature: 420~480 degrees in Celcius
- SP-40B: Pot diameter at 40 cm, 120~150W
- SP-60B: Pot diameter at 60 cm, 250~300W
- SP-80B: Pot diameter at 80 cm, 350~400W
- SP-100B: Pot diameter at 100 cm, 450~500W
- Pot's depth: 40 mm
