FT-10 Foil Machine

FT-10 accepts paper sheets up to 320mm wide and of any unlimited length.

As it foils from a toner image, no need for a negative or an expensive metal die.

Ready-to-use FT-10 produces beautiful flat foil stamping.

Foil Tech Foil is available in a range of colors and effects, including wallpaper holograms.

Rolls are available at 305mm wide or specific widths can be supplied cut to size.

To really increase profits, consider our Foil Cutter (FC-80) to save films.

We also supply clear film for FT-10.

The image quality is durable from a full color laser printer, compared to offset printing, while is permanent, uniform and has a glossy finish.

Suitable for many applications, certificates, name cards, greeting cards and etc.
